

Tarndie Polwarth Wool

Shearing 2017 – Fleece Order Form

Create something special with our soft handling, 100% natural wools grown on our farm at Tarndwarncoort Homestead in Southern Australia.

For 2017 Shearing, we have 150 coated Polwarth fleeces available in natural colours. Our sheep wear the UV-resistant coats all year to minimise vegetable matter in the fleece. Whole fleeces weigh between 1.8kg – 2.5kg. We combine fleeces to fill a weight order which may mean some variation.

Our Polwarths are 22-24 micron. We test for fibre soundness by gently drawing a pencil-sized staple over a single hand card, opening individual fibres without any break occurring.

If we are unable to fill your first choice order, we will endeavour to meet your second choice. We will contact you with confirmation of the order and an invoice for payment prior to shipping or collection.

Fleece Descriptions

Elite Quality Polwarth fleeces are the Woolclasser's Top Picks. They have a staple over 13cm/5inch. Even, well-defined 9 crimps in 1 inch. Minimal tip loss. It is sound, very soft and clean. AUD\$48/kg

Export Quality Polwarth fleece is 10-12cm/4-5inch staple length. Very soft. 9 crimps in 1 inch. Good strength. Clean tip. AUD\$46/kg
